

HIGH JOLT

INTERLOCKING RUBBER TILES FOR COMMERCIAL FITNESS

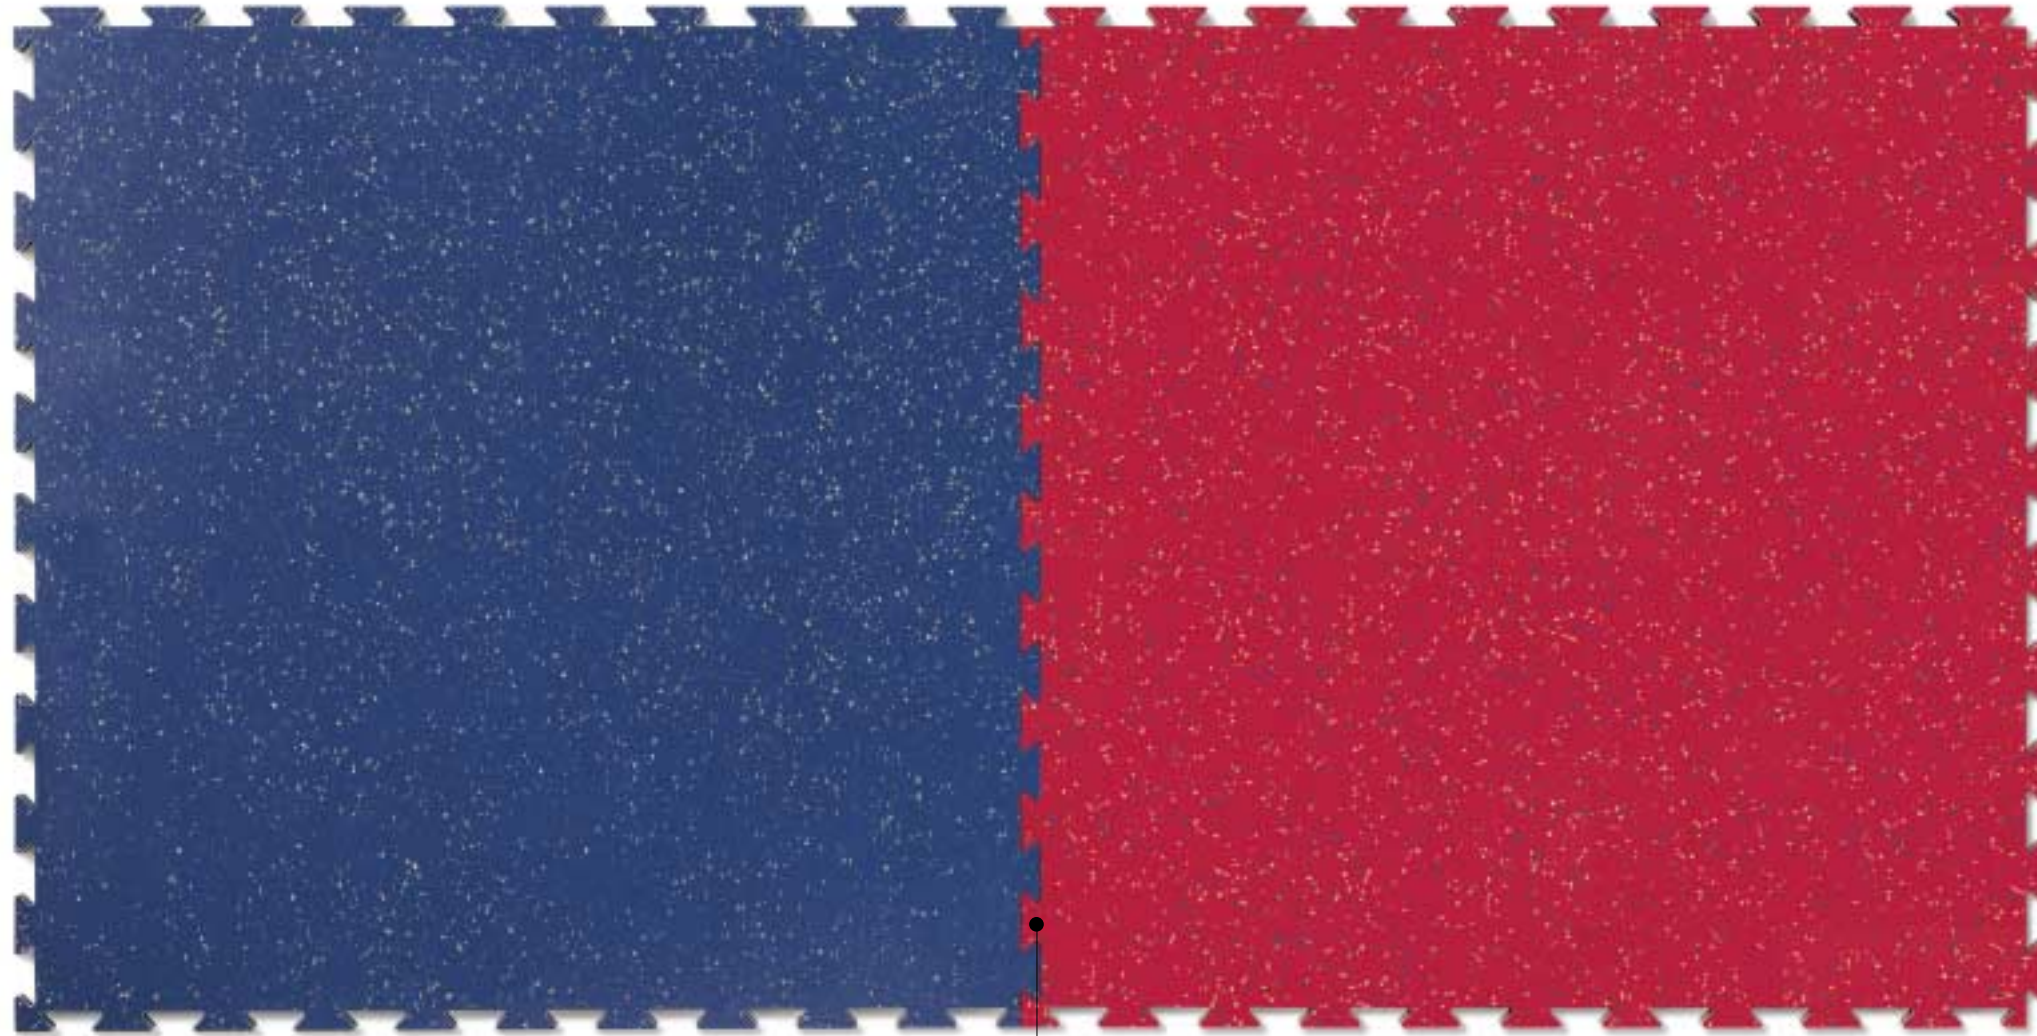

MONDO[®]

ENGINEERED FOR HUMAN VITALITY

HIGHJOLT

INTERLOCKING RUBBER TILES FOR COMMERCIAL FITNESS

Mondo's years of experience producing quality fitness flooring now brings you a quickly installed, durable surface in a range of brilliant colors that will make your facility stand out from the competition. Protect your facility against damage from weights and cardio equipment. Let Highjolt energize your facility!

LOW MAINTENANCE

No coatings required.

HYGIENICALLY SOUND AND ODOR-FREE

Made of premium rubber and not recycled rubber, our tiles are almost odorless.

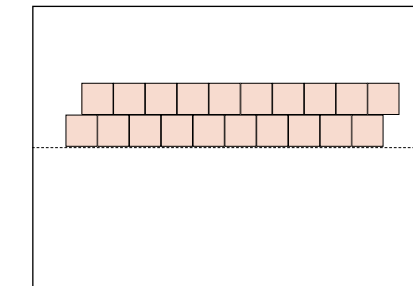

EXCELLENT CUSHIONED COMFORT UNDERFOOT

Rubber's unique elasticity provides unsurpassed natural anti-fatigue properties.

QUICK INSTALLATION

Step 1

Proceed to square the room and trace a straight line parallel to the length of the room.

Step 2

Fit entire floor section, positioning the tiles in an Ashlar pattern or point-to-point. Line up the first row of Mondo tiles with the traced line.

Step 3

Tiles may be cut to produce straight edges around the perimeter and to lie flush against the wall.

UNMATCHED DURABILITY

Vulcanized rubber has maximum elasticity and superior weight resistance. Minimal surface deterioration ensures the product will last as long as the fitness facility itself.

TIGHT FIT

Tiles are cut by means of a computer-assisted precision cutting system that produces virtually seamless joints.

F07 Yellow Flash

F08 Electric Teal

F13 Power Green

F03 Indigo

F05 Red Hot

F01 Thundercloud

F06 Vibrant Black

F12 Sandstorm

[SPECS WEB](#)
