MONDOTRACK

NEW TRAINING AND COMPETITION TRACK

MONDOTRACK SX

Training and competition track.

MONDOTRACK FTX

Premium custom made track.

Same construction as Mondotrack SX with a special formula backing that's the same color as the surface.

Optimal traction and greater contact area

The irregular size and shape of the tessellation pattern has been designed to provide the best traction between the track and shoe spikes and for a greater contact area than other track systems. This improves athletes' grip and performance.

NEW TEXTURE

Mondo's new surface embossing results from careful analyses of numerous patterns.

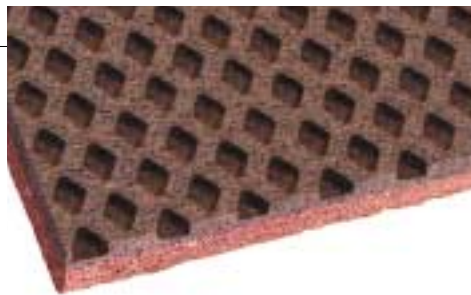

Easy to clean

Greater water flow efficiency in rainy conditions

Ensures optimal traction in all weather conditions for excellent athletic performance and maximum safety.

Harmonious aesthetic design

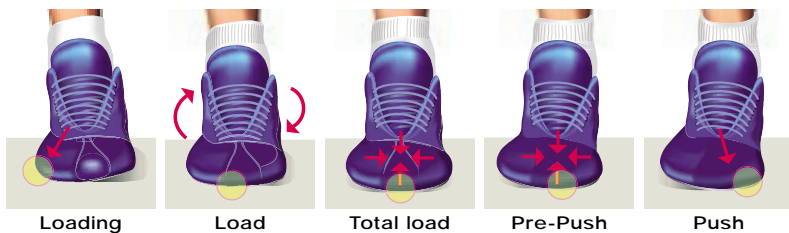

The irregular tessellation design provides more harmonious aesthetics than recurring or systematic patterns, which can have dissonant or jarring effects.

HEXAGON BACKING

Optimal performance, control and comfort

The directional compression of the honeycomb backing renders the track more elastic and responsive, improving athletic performance. The elongated honeycomb is structurally strong and provides improved lateral support and, therefore, better control.

DEFORMING GEOMETRIES

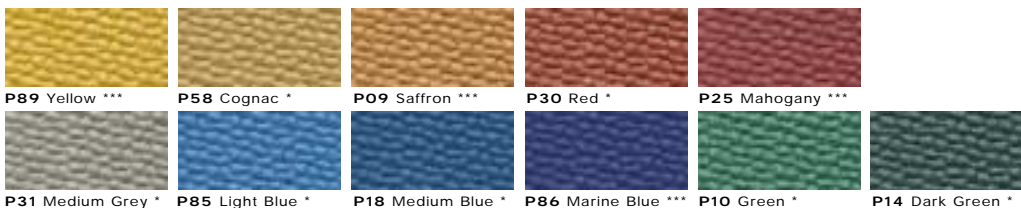

During each step, the force gained and not dissipated transitions from the 5th metatarsus to the 1st metatarsus faster with the new MondoTrack than with existing track products. This helps support the effort of the lower leg muscles, increasing athletes' comfort and enabling runners to achieve faster times.

IAAF World Championships (Outdoor)

- 2005 HELSINKI, FINLAND
- 2003 PARIS, FRANCE
- 2001 EDMONTON, CANADA
- 1999 SEVILLE, SPAIN
