

## PRODUCT SPECIFICATIONS

### ROLLS AVAILABLE IN

3/8" x 48" wide rolls (standard all colors 10000, 20000 & 35000 Series)  
1/4" x 48" wide rolls (standard in AK10100, AK10101 and AK10102 SKUs)  
5/32" x 48" wide rolls (standard all colors 95000 Series)

### REGUPOL AKTIVLOK INTERLOCKING TILES

Dimensions: 24" x 24" x 3/8"  
Call Regupol America for color availability.

PRODUCT SPECIFICATIONS		(10000, 20000, 35000)	95000
Density	ASTM D3676	60 pcf	80 pcf
Hardness	ASTM D2240 (Shore A)	60 +/-5	60 +/- 5
Tear Strength	ASTM D624	80 pli min	70 pli min
Elongation	ASTM D412	>145%	300 %
Tensile Strength	ASTM D412	>220 PSI	200 PSI
Flexibility	ASTM F137 1/4" Mandrel	Pass	Pass
Resistance To Chemicals	ASTM F925	No change	No change

SPORTS & FITNESS SURFACES

# REGUPOL® AKTIV™

## THE INVENTION THAT REVOLUTIONIZED THE WAY THE WORLD WORKS OUT.

Over 40 years ago, German company, BSW, put a new spin on tires – a sports and fitness spin. BSW invented the technology to recycle tires into rubber flooring that forever changed the fitness world. It was quintessential German engineering, innovation, precision and performance. In the lab, BSW scientists called it Recycled Gummi Polymer. But for decades, sports and fitness enthusiasts worldwide have called it by the acronym synonymous with performance – Regupol®!

### REGUPOL AKTIV. ENDURING THE RIGORS, WITH STYLE.

From the selectorized area, to the spinning room, to the “iron den” – and virtually every space in between – Regupol Aktiv goes well beyond “fitness for purpose”! That’s because we invented the advanced manufacturing process that makes Regupol Aktiv flooring extremely dense, resilient and wear resistant. And all that toughness and durability comes with exceptional good looks and color combinations that make facilities as attractive as they are functional.

### WHY WORK WITH THE INVENTOR?

Working with Regupol America gets you much more than recycled rubber flooring. Because we’ve been working with the technology since day one, you benefit from four decades of experience and expertise that only the inventor can offer. That means the right information, advice and answers, right when you need them. And a product that’s been refined, tested and retested over the years by our R&D team to deliver precision performance that will not disappoint. It’s all accomplished with manufacturing to the highest quality standards, according to the strictest environmental requirements. And customer service provided with the beaming pride of an inventor.

# WE WERE THE FIRST TO PUT HIGH PERFORMANCE IN LOW PLACES.

Regupol has been synonymous with performance since we invented it. It began in the lab with years of polymer recycling research that enabled us to innovate a material with superior density and resilience. A material processed from recycled tires that, since its invention, has blanketed thousands of miles of fitness facility floor worldwide.

All those miles of Regupol Aktiv have been manufactured using the latest state-of-the-science equipment, the cleanest raw materials, and the most consistent color infusion. As a result, all those facilities received the benefit of Regupol Aktiv performance.

## PERFORMANCE.

### MEASURED IN TONS.

Clean, jerk, drop, repeat – over and over and over. That's just one of the toughness and resiliency tests we put Regupol Aktiv through to ensure that it endures whatever abuse the most intense athletes and fitness fanatics can dish out. Regupol Aktiv takes the impact of dropped heavy metal and intense workouts without so much as a flinch, time after time.

## PERFORMANCE.

### MEASURED IN MILES.

Regupol Aktiv's durability has been pushed to the limits in cardio areas, spinning rooms, entryways, corridors, warm-up areas, locker rooms – any area that's on the receiving end of miles and miles of grinding athletic movements and heavy foot traffic. And it always rises to the challenge.

## PERFORMANCE.

### MEASURED IN INJURY REDUCTION.

The unique polymeric composition of Regupol Aktiv provides maximum comfort underfoot. It's a firm yet resilient surface that's easy on the feet when walking or standing for long periods. Most important, its resiliency absorbs the shock of training impact, reducing the potential for stress and injury to athletes' bones, joints, ligaments and tendons. And it's slip resistant, wet or dry.

## PERFORMANCE.

### MEASURED IN DECIBELS AND LUMENS.

Regupol developers looked beyond comfort underfoot to enhancing comfort all around. In addition to being shock absorbent, Regupol Aktiv is also sound absorbent and non-reflective, for a quieter environment with more pleasant lighting conditions.

## PERFORMANCE.

### MEASURED IN MOST ANY VENUE.

Although specifically created for fitness facilities, Regupol Aktiv's proven performance has made it the flooring of choice in ice arenas, stadiums, ski resorts, golf facilities, swimming pools, bowling centers – most any venue where Regupol Aktiv's properties of toughness, resilience, safety and durability make logical sense.

## PERFORMANCE.

### MEASURED IN ENVIRONMENTAL FITNESS.

The very nature of Regupol America products makes them an environmentally responsible choice. After all, we put tires that would otherwise end up in landfills to very productive use. Regupol Aktiv is composed of up to 100% post-consumer tire rubber and post-industrial EPDM rubber. And our manufacturing process exceeds the strictest environmental standards. All this, of course, means using Regupol Aktiv can qualify your facility for LEED credits.
