RUNNING TRACK
FOR PHYSICAL THERAPY

**MOLDED AND VULCANIZED
TOP & BOTTOM LAYER**

- **Maximum energy absorption and return**
This biomechanical design provides the most consistent and safe training surface while maintaining competition caliber performances
- **Molded and vulcanized top layer**
Provides maximum elasticity and unparalleled durability.
- **No resurfacing or recoating required**
No top coating to wear through or granules to wear off.
- **Extremely maintenance friendly**
On a regular basis, normal rainfall carries away the surface dirt.
- **Consistent performance**
Can be customized to meet the needs of each facility, caliber of athletes and climate conditions.
- **Easy to repair**
- **Recover from prolonged multiuse point loading**
