

TASKI swingo 2500 / 3500

TASKI swingo 2500 / 3500 bring you:

- Unbeatable Cleaning Performance
- Unique ergonomics
- Reliability and Durability
- Unrivalled Productivity

Unbeatable Cleaning Performance

A patented all wheel steering system defines new standards in manoeuvrability and therefore allows the use of this ride on machine even in narrow and congested areas. The innovative squeegee concept ensures a 100% edge-to-edge water pick-up even in curves and while turning.

Unique Ergonomics

The machine offers a seated operating position coupled with a very high working speed. The extremely low noise level, which is comparable to the noise level of a vacuum cleaner, makes work more enjoyable.

Reliability and Durability

Fewer mechanical parts and a robust construction make the machine very reliable. Easily exchangeable brushes and

Battery powered ride-on automatic scrubber drier for floor cleaning

squeegee blades allow simple maintenance and therefore ensure the machine can be easily prepared for use at any time.

Unrivalled Productivity

A higher cleaning speed of 7.5 km/h combined with the CSD (Cleaning Solution Dosing) System make the TASKI swingo 2500 / 3500 series 40% more productive compared to walk-behind automatic scrubber driers.

Technical Data

Theoretical performance	5250 / 5950 m ² /h
Working width	70 / 85 cm
Squeegee width	93 / 108 cm
Solution tank - bag system (nominal)	95 l
Recovery tank - bag system (nominal)	95 l
Rated voltage	24 V
Nominal consumption	2000 W
Battery capacity	240-290Ah/C5
Battery autonomy (nominal)	3-5 h
Machine weight ready for use (w/o driver)	560 / 570 kg
Dimensions (L x W x H) (w/o squeegee)	780x1690x1370 mm/ 905x1690x1370 mm
Brush pressure (max)	52-74 kg/ 60-102 kg
Cleaning speed	7.5 km/h
Transportation speed	9.0 km/h
Sound level	67 dB(A)
Turning circle	1.9 m
Approvals	TÜV

TASKI swingo 2500 / 3500 is available in the following versions

Model	Standard
TASKI swingo 2500	
TASKI swingo 3500	

Accessories / Additional Parts

Accessories	Article number
Pad drive 35 / 43 cm	8501120 / 8501130
Scrubbing brush standard 35 / 43 cm	8501080 / 8501100
Scrubbing brush washed concrete 35 / 43 cm	8501060 / 8501090
Scrubbing brush abrasive 35 / 43 cm	8502720 / 8502760
Filling hose with universal water coupling	8502830
Additional Parts	Article number
Draining pump	7508029
Recycling system	7508027

Description of Features

CSD: Cleaning Solution Dosing

With the patented CSD system, exactly the right amount of cleaning solution is dosed onto the floor, depending on how fast the machine is going. The slower you go (e.g. around corners), the less solution is dosed. The result is no puddles around corners, a 30–50% saving in cleaning solution and significantly increased productivity of the machine.

POWERFILL station:

To optimise your tank filling process we recommend the use of POWERFILL. The stainless steel tank holds up to 150 liters and fills the tank of TASKI swingo 2500 / 3500 in less than 60 seconds with correctly dosed cleaning solution. Apart from cutting your downtime during filling stops, POWERFILL helps to reduce chemical consumption and to ensure an optimal cleaning result.
